

Important Information regarding your Magnum Entertainment Booking

Hi Francesca,

Here at Magnum Entertainment over the last 4 weeks we have been creating a new booking system to process bookings with, this system is replacing the one we have used for the last 3 years as it offers much more information and accessibility for both yourselves as the client and ourselves as a company.

With this there has been a few changes in which we have had to make to comply with legal requirements that surround our business, these are both for the benefit of yourself as the client and ourselves as a company.

With that being said one of the requirements for the new system is we are required to have a home address stored within our system for any clients, the only use of this is it is required as part of your personal details for our booking contractual purposes.

If you could please confirm your most recent correct contact number along with your home address including postcode this will allow us to add your booking to our new system.

Clients and bookings will begin to move over to our new system on 5th November 2019.

Please Note: You will be required to view and sign your contract again.
